MyDiaryPro helps you capture thoughts, drawings and quick voice notes in a private space just for you.

All diary entries and recordings are **stored only on your device** – we do not upload, sync or send your content to our servers or to the cloud.

~~It can be backed up to the cloud service if you want.~~

Screen #8

Let's connect you to people you know.

Allow access to contacts to automatically connect to friends already using the service.

At MegaChannel our mission is to feed the world! But content, not food (just as important!)

We retain history of stuff you do. Interaction details (what's watched, liked, or shared) because those signals help us sell better ads and power the all-knowing personalised feed.

TastyFoodz serves up tasty meals fast – and a little helpful info makes that possible.

To get food to the right place, we share data with our delivery partners (for example, ShuttleGo), so drivers know where to go.

Dunno what they do with this data later,
